

Minutes - Supervisor Meeting 3 – 14/10/2014

Summary

At this meeting I spoke to my supervisor about the project plan which I developed and will send him to look at. I spoke to my supervisor about the background reading being finished and that I had started researching into my design decisions. I decided to change my plan slightly and finish focussing on finalising my design decisions before starting my ethics.

By the next meeting I hope to have:

- Background reading, design decisions and target market information finalised
- Requirements specification and ethics started.

We also spoke about some queries I had about development processes and requirements specification for the project.

Next Meeting

21/10/2014 – 3pm
