

Minutes - Supervisor Meeting 1 – 16/09/2014

Summary

At this meeting we discussed the initial idea and Kari's concerns about whether the idea was suitable as there were apps out there that had similarities to the idea. Kari had researched other apps as well as started some background reading. The majority of the meeting was focussed on whether the idea was appropriate for honours project and the technologies being used such as Android, SQL etc. The meeting set out initial plans.

Next Meeting

7/10/2014 – This was scheduled a few weeks later due to the industrial project and that Kari's attention will be focussed on that.
