

Recipes For Life - Honours Project - Risk Assessment

Risk	Likelihood	Loss	Severity	Priority	Contingency 1	Contingency 2
Database crashes and losses all data	8	10	80	1	Have data all backed up on a local database, so it is easy to transfer to the local one	Store all sql statements so I can easily run them again
Other projects take longer than expected	9	8	72	2	Have set days where I only focus on honours project, so I don't let other projects affect it	Spend more time on honours project to catch up on what hours were lost from the other projects
Project scope expands	9	8	72	2	Reorganise and reprioritise requirements, so I'm not trying to do too much within the time frame	Discuss scope with supervisor and organise the most important/relevant aspects of project
Loss of file data	7	10	70	3	Have everything backed up on github so I can access the files wherever I am	Back up files on external hard drive
Ethics not approved and needs changed	8	8	64	4	Make the changes to the ethics first priority and deal with it immediately	~
Laptop crashes	6	10	60	5	Have all files stored online so I can easily move to another pc	~
Cant connect to vpn	7	8	56	6	Have everything local as well as on vpn	~
I become ill	7	7	49	7	Contact supervisor to let them know that this may affect progress	~
Loss of wifi	6	7	42	8	Have locations to goto where wifi will be available	~
Participants pull out of project	5	8	40	9	Try to get more participants than needed so you have them as back up	~
Device stops working	5	8	40	9	Be able to show on emulator or an alternate device	~
