

Minutes - Supervisor Meeting 5 – 28/10/2014

Summary

Before the meeting I emailed my supervisor my ethics form which I gained feedback back from my supervisor. So at the meeting we discussed the ethics and I told him about it that it has now been submitted to the ethics committee. I updated him that I had created my initial requirements specification which will be built on based on user responses from the survey, written up target market information (but hope to develop it further and started detailed design sketches on Axure to get user feedback from. I also told my supervisor about gaining server space.

By the next meeting I hope to have:

- Design sketches finalised
- Risk and gantt created.
- Report started.

Next Meeting

4/11/2014 – 3pm
